Look Beyond the Wall Committee,

Thank you for all that you have done for the children of Riley Hospital and the workers on the project. I have worked on several pharmaceutical and hospital projects and I have often said that the work we do is saving lives. I have noticed that more of my fellow workers are realizing this because the Look Beyond the Walls Committee has made it very personal; we have met some of the children. Many times construction workers do not get recognized for their efforts, but on this job we have been. It is nice to feel appreciated.

Imagine...
Peace on earth.

Happy Holidays

Thank you again,

John Kunk
